

**PEORIA PUBLIC SCHOOLS AND VERTICAL COMMUNICATIONS TO
SHOWCASE NEW TECHNOLOGIES THAT
ENHANCE EDUCATION AND SAFETY**

WHAT: Peoria Public Schools and Vertical Communications, a leading provider of advanced communications systems, will be demonstrating several new technologies that enhance education, simplify communication, increase safety and security, and reduce operating costs. The system includes a combination of cutting-edge voice, video and monitoring innovations that allow administrators and staff to authenticate visitors, improve communication across all district facilities, and decrease response time in the event of an emergency. The system is currently installed at a number of Peoria Public Schools facilities.

WHEN: Thursday, November 3, 2016. Demonstrations and tours are scheduled for 10 am.

WHERE: Trewyn School, 1419 South Folkers Avenue, Peoria, IL 61605

WHO: Dr. Sharon Desmoulin-Kherat, Superintendent, Peoria Public Schools; Mrs. Renee Andrews, Principal, Trewyn School; Glenn Huskey, Managing Partner, Vertical Communications

WHY: Peoria Public Schools recently invested in advanced technology from Vertical Communications, recognized as an industry leader in robust communications solutions for the education sector. The system leverages state-of-the-art Voice over IP (VoIP) technology that substantially improves safety, efficiency, and performance across some 35 buildings and facilities. Peoria Public Schools officials and Vertical Communications executives will be on hand to demonstrate these technical capabilities, and discuss plans for adding newer innovations and that will result in even greater functionality and security.
